Head and neck
support accessory for
ultimate washbasin
comfort

Glamour

just got comfortable.
Seriously.

Position your salon as an industry leader

The innovative **HeadBed** is a revolutionary patented head and neck support cushion designed to provide the ultimate customer experience at the salon sink.

No longer will you experience complaints from customers on how uncomfortable your washbasins are.

First launched at the Sydney Hair Expo to rave reviews, the **HeadBed** is ergonomically designed to support the head at its heaviest point so that the neck muscles can totally relax whilst the customer is at the salon sink.

As the name suggests, it's like a **bed** for your client's **head**, providing more comfort and more support than conventional salon sink neck cushions. Yet it is still small enough not to interfere with hairdressers completing their tasks.

Salons using **HeadBed** reported a reduction in customer discomfort complaints to nearly zero. **HeadBed** also eliminates water leakage, keeping customers dry and comfortable.

Customer

comfort

means repeat business.
Seriously.

The HeadBed will save you thousands of dollars on the cost of replacing washbasins

While shampoos and conditioners have constantly been evolving with innovative ideas, the washbasin – an integral part of the salon experience – has not. The standard washbasin at the salon creates discomfort and pain for hundreds of thousands of people every year.

But it doesn't have to be like that.

The **HeadBed** is the ultimate in comfort and safety, and can help position your salon as an industry leader.

The **HeadBed** is so versatile that it can fit any standard salon sink, and will save you thousands of dollars on the cost of replacing washbasins.

What people are saying...

- Wow! Heaven! Fabulous! Feels amazing!
- Love the comfort.
- Totally loved it.
- No strain, no pain. I actually chilled out today.

HeadBed[®]

fits easily onto any basin, anywhere.

Salon sink head and neck support cushion
