

LAUNDRY EQUIPMENT

We focus on solutions so you can focus on your business

CROSSOVER

Built for commercial use.

**Lasts 2-3 times longer than
appliance type machines!**

- Nearly three times the life of appliance type washers
- Uses 60% less water than a top load washer
- Faster drying - up to 15 minutes less drying time per load
- Up to 25% less energy consumption in the dryer
- Dependable, rugged operation
- No oversudsing and stays in balance - finishes cycle
- Large door and heavy-duty door hinge
- Extra big load drum - Double-plus capacity
- Soft mount technology for easy installation on wood floors, upper levels, and over basements.

**Satisfied Crossover customers
from coast to coast.**

"I am very impressed with the wash results and speed of the Crossover washers and dryers. The machines use less water and energy than other models, plus they easily handle heavy loads. Who wants to worry about laundry? We want to focus on serving our customers and growing our business -- and Crossover lets us do just that. Crossover has exceeded my expectations."
